

## Three in Party That Killed Lynaugh, Testimony Develops

One of Trio of Men Struck  
Boy, Whose Body Was  
Carried Several Yards  
And Abandoned.

SOME KNOW THE ASSAILANT

Testimony Shows Unknown  
Persons Have Information  
But Will Not Tell.

Findings from the report of the post mortem examination held over the body of Edwin E. Lynaugh by a physician appointed Friday in the county court, that the deceased came to his death at the hands of persons unknown to the jury, and that the wounds which caused the young man's death, had Wednesday was done while he was walking on the sidewalk at the intersection of the city and county attorneys' office in the court of justice at 11 o'clock Friday and continued to Saturday afternoon through in the street without sufficient evidence to fix the blame for the death.

Lynaugh recently discharged from the army, coming to this city in October, with several associates, from Independence, Mo., last Tuesday was found lying fatally wounded on the sidewalk at First and Main streets Wednesday night, by crowds coming from a nearby theater. The assault, which caused the death, made by parties as yet unidentified, was not preceded by a quarrel, but from testimony of witnesses, was the result of a single blow struck by an unknown person.

Missing Witnesses Sought.  
After the return of the jury with its verdict, J. G. Thompson, assistant county attorney, stated that while the testimony was insufficient to fix the blame for the murderous assault, it did show that several persons were witnesses to the assault, who have not as yet given the officials any information whatever. These persons, while perhaps not implicated in this crime, nevertheless have knowledge of the participants and by failing to notify either the city or county officials of the true circumstances surrounding the assault, lay themselves liable to apprehension as accessories either before or after the fact and prosecution as such.

That Lynaugh was stricken by an unidentified man upon whose right hand was a brass knuck, was the testimony of Clyde Eickel and Louis Hansen, two boys who testified that upon leaving a picture theater in the vicinity of the crime, they saw a blow struck and saw Lynaugh fall to the sidewalk. Eickel stated that he could not identify the assailant, but Hansen declared he had previously seen the man who assaulted Lynaugh and would be able to identify him. The two boys were the only witnesses produced who testified that they had witnessed the assault at close range. After the man had struck Lynaugh, the assailant, with two other men, walked rapidly east on First street.

Had Come Here to Work.  
Some light was thrown on Lynaugh's actions for the two days previous to his death by Edward Lewis and J. E. Conley, with whom the victim worked at Independence, Mo., previous to coming to Tulsa last Tuesday. Lewis testified that he had known Lynaugh for the past five years, and that he had worked with him in Independence until last Monday, when a number of men, employed in pipeline work, decided to come to Tulsa seeking work. Lewis Conley, Lynaugh and several other pipeline workers came to this city and secured lodging at the Eagle hotel on East First street. Lewis stated that the last time he saw his friend was in front of the Eagle hotel about three hours before the fatal injury was inflicted on Lynaugh. Conley had known Lynaugh for only a few weeks. Both men testified that they had never known Lynaugh to be of a quarrelsome nature.

Popcorn Vendor Testifies.  
J. W. Reed, proprietor of a popcorn wagon, within a few feet of which the slugging occurred, stated that he was not in his wagon at the time of the assault, but that he arrived immediately afterward. He could offer no testimony as to the actual assault, but stated that a man whom he had never seen stepped up to the wagon, and stated to Reed that he, the speaker, knew who assaulted the man at that time lying on the sidewalk, but that he would say nothing to the police because he wished to keep out of the affair entirely.

It was upon this testimony and some other of a similar nature that Attorney Thompson based his belief, expressed in court that there are several persons in this city, not implicated in the affair, who have for some reason refused to make known to the county authorities such information as they have.

John Hansen, employed on road work at Brainer station, west of this city corroborated the testimony given by Jack Waldrop Friday, when he stated that with Waldrop and another man whose name he did not know, from across the street saw the assault. Neither of the three men went to Lynaugh's assistance, according to his testimony.

To Continue Investigation.  
While the members of the jury were compelled, because of other business, to return a verdict after two afternoon sessions, and the matter closed so far as this jury is concerned, Attorney Thompson stated to the court that the county attorney's office would continue to investigate the case. He declared his belief that such a crime could not

## LIBERTY CO-DESIGNER PRAISES CADILLAC

Lieutenant Colonel Hall Writes He  
Cannot Recommend Any Im-  
provements in Car.

Before the armistice was signed, word of Cadillac service overseas began to reach this country, and since November scores of soldiers, of both high rank and humble, have added their enthusiastic praise to what has already been said.

One of the latest of these messages received by the Cadillac company comes from one of the designers of the Liberty engine. Lieutenant J. J. Hall, Lieutenant Colonel Hall served as chief of the technical section of the air service abroad and also as an associate engineer of the aircraft production board. He has now returned from France to his business at Berkeley, Cal. His letter says:

"From my observations I believe the Cadillac cars abroad gave better service than any other make in France. I personally used Cadillac cars practically in all my traveling to and from the front and on the front during my stay abroad. This work was during bad weather and generally averaged from 14 to 16 hours a day, and most of the driving was done around an average of 40 miles an hour. I was never held up on any trouble at any time. Furthermore, I never saw a Cadillac in France that was tied up for any trouble of any kind. Many officers would delay their trips until they could get Cadillac, whereas there were many other makes of foreign and American cars available. I believe you have reached practically the limit of service that a car can give. I could not recommend any improvements."

One of the first things I did on my arrival home was to purchase one for my own use."

The defense outlined today that Mrs. Bush had conceded this story to enable her son to escape after the murder of the boy. Mrs. Bush is the mother of 12 children, nine of whom are living.

Police Found Gully.  
NEW ORLEANS, La., April 5.—John G. Schuermann and George Russell, formerly New Orleans police men, who have been on trial here for over a week on charges of having attempted to extort a bribe from Mrs. Orlan Varborough, who, with her husband, and two small children, came here from Texas several months ago and occupied a house in what was formerly the restricted district of the city, were found guilty by a jury tonight. James Hart and Louis Anderson, also former policemen, jointly indicted with Schuermann and Russell on bribery charges, were acquitted during the afternoon on instructions from the court.

Is Golf Champion.  
PINEHURST, N. C., April 5.—Edward Beall of Uniontown won the North and South amateur golf championship here today by defeating F. C. Newton of Brookline four up and three to play, in the 36-hole final.

## ALLEN WILLING TO ASK FIXING OF COTTON PRICES

TOPEKA, Kan., April 5.—Gov. Henry J. Allen declared he was ready to join in an appeal to the federal government to fix a guaranteed price for cotton, except that which was in the hands of speculators, in a telegram sent tonight to W. R. Cooper, at Wilmington, N. C. Governor Allen's telegram was sent in reply to one from Mr. Cooper, who asked him if he would join southern cotton people in asking the federal government to guarantee 35 cents a pound for middling cotton up to June, 1920, or so long as the present wheat prices are guaranteed.

"I will be glad to join southern cotton people in asking the federal government to guarantee cotton price for all cotton that has not been held for speculative prices during the war. This guarantee, of course, would apply to the new crop."

Allen's telegram was sent in reply to one from Mr. Cooper, who asked him if he would join southern cotton people in asking the federal government to guarantee 35 cents a pound for middling cotton up to June, 1920, or so long as the present wheat prices are guaranteed.

Allen's telegram was sent in reply to one from Mr. Cooper, who asked him if he would join southern cotton people in asking the federal government to guarantee 35 cents a pound for middling cotton up to June, 1920, or so long as the present wheat prices are guaranteed.

**Selected by Us to Give You Quick Service**

**Uniform Tires  
Mean Long-Distance Millers  
They Look Alike and Wear Alike**

**MILLER TIRES** are built by men who are trained to a championship standard. Only by uniform workmanship, can tires ever be uniform in mileage like the Miller. To train men to our perfection takes much time. We cannot supply all dealers with Miller Tires.

So our policy is to concentrate, as a rule, on the dealer in each locality who will give Miller Tire users exceptional attention. That governed our choice in this city.

We chose a concern that knows that to give real service it must first of all carry a full stock of sizes, so that when you want a Miller Tire in a hurry, you can get it without waiting.

We are impressed especially with their ability to give motorists an expert repair service, and by their reasonable charges.

Before making this selection we canvassed the local field thoroughly. And the Miller agents here are making good with us by making good with you. Are you getting the benefit of what they have to offer?
